About Project Report

491

Times New Roman, 12 punto, black, bold titles, justify both sides

Project report should contain the following elements:

Title Page

Contents

- Table of content
- List of figures
- List of tables

Introduction

- A short summary of the whole process (what did you plan, how is your design, what kind of methods or tools or platforms or hardware or software did you used, and finally what did you get)

The body of the report

- Aim and importance of your project
- Timeline
- Risk Analysis
- Similar works and comparison (additional features of yours)
- Design of the project (components, interactions, transactions, dataset, database, client-server ack., UML(s) etc.)

Conclusions

- Strongest and weakest points of the project

References

Appendices (if appropriate)

About Project Presentation

- 10-15 minutes zoom meetings with jury

- Just product base (no more details about the process)

Convert to your report a pdf file, then upload that pdf.

One copy for each group is enough.

Deadline for report submission: 15 May, 23:59
Presentations: 16-20 May
